

National Core Indicators Annual Meeting

August 12, 2015

StateData.info

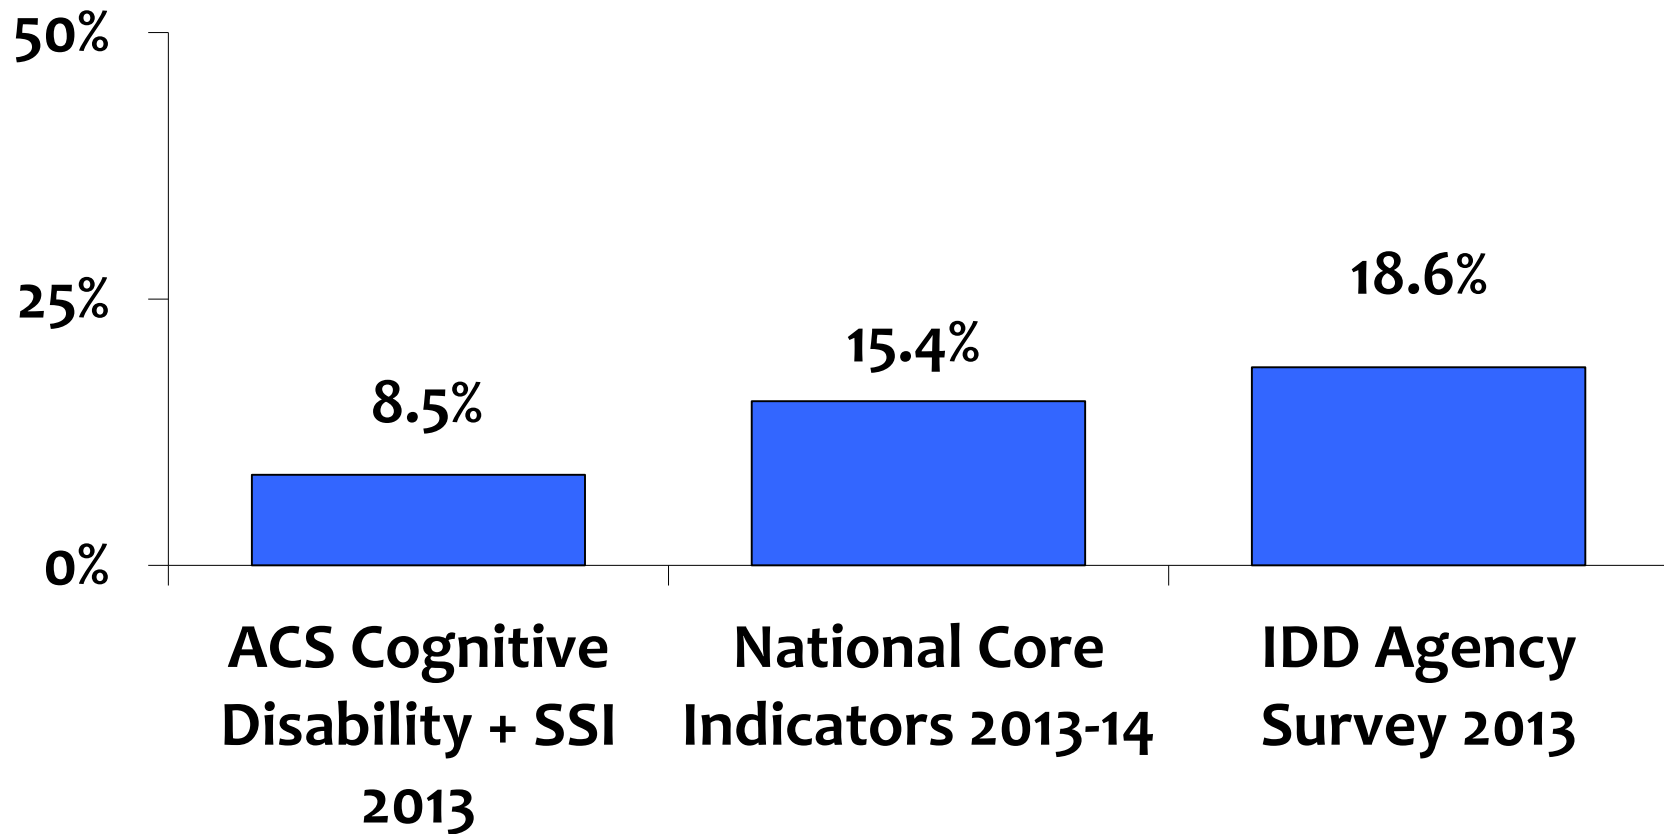

ThinkWork!

How NCI data contributes to the whole picture...

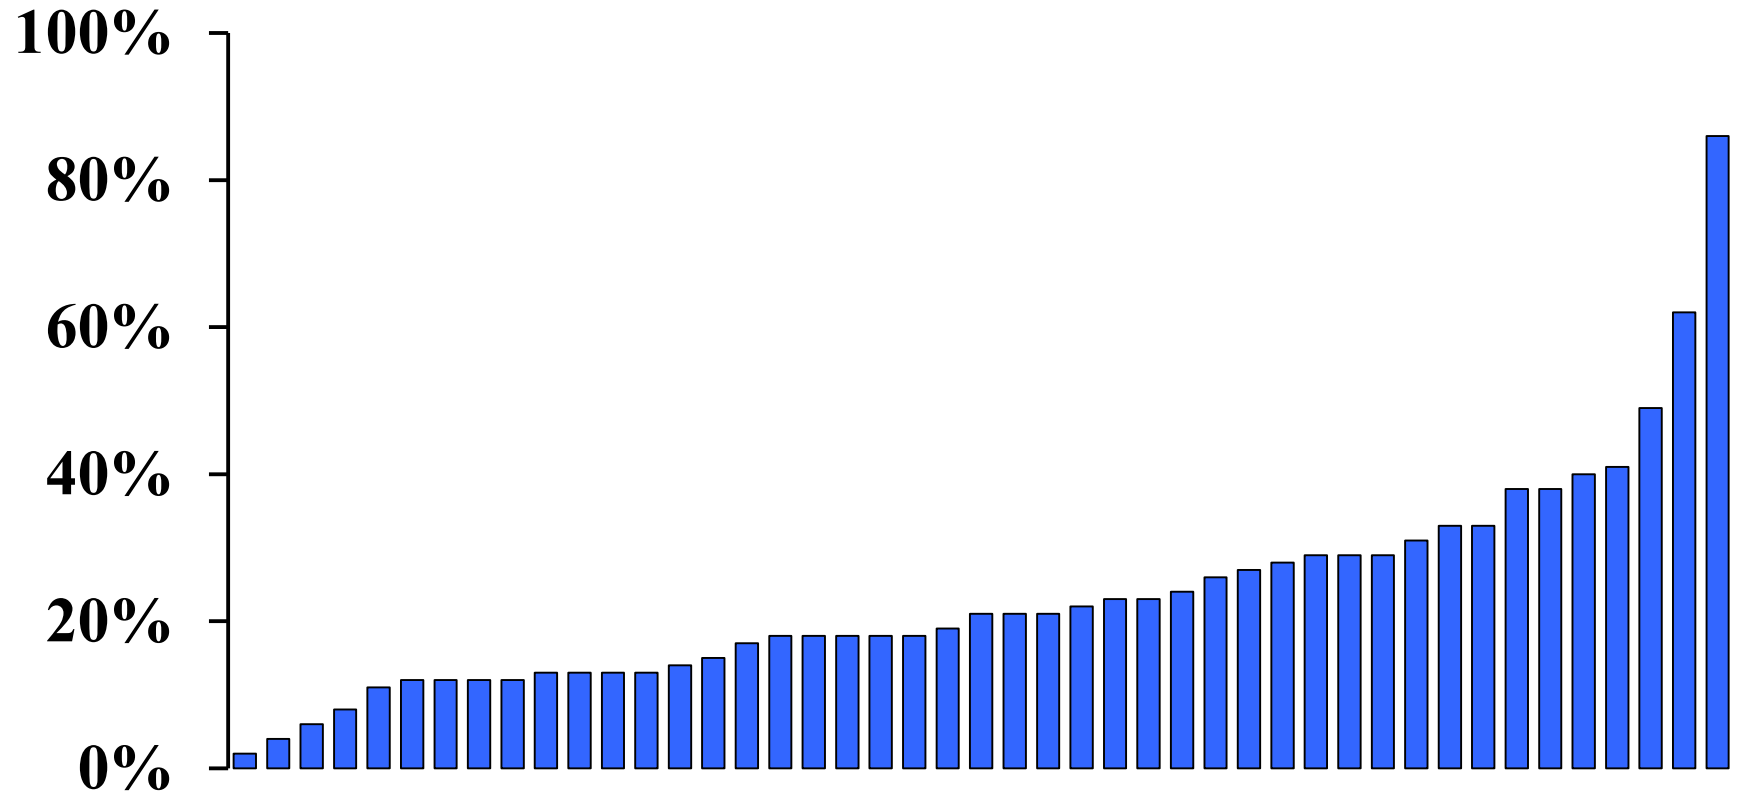

- ❖ Focuses on outcomes rather than services
- ❖ separates group v. individual community employment
- ❖ outcomes for transition age youth
- ❖ provides detail on community life engagement activities

How many people are employed?

Participation in integrated employment services varies widely

Source: ICI National Survey of State IDD Agencies

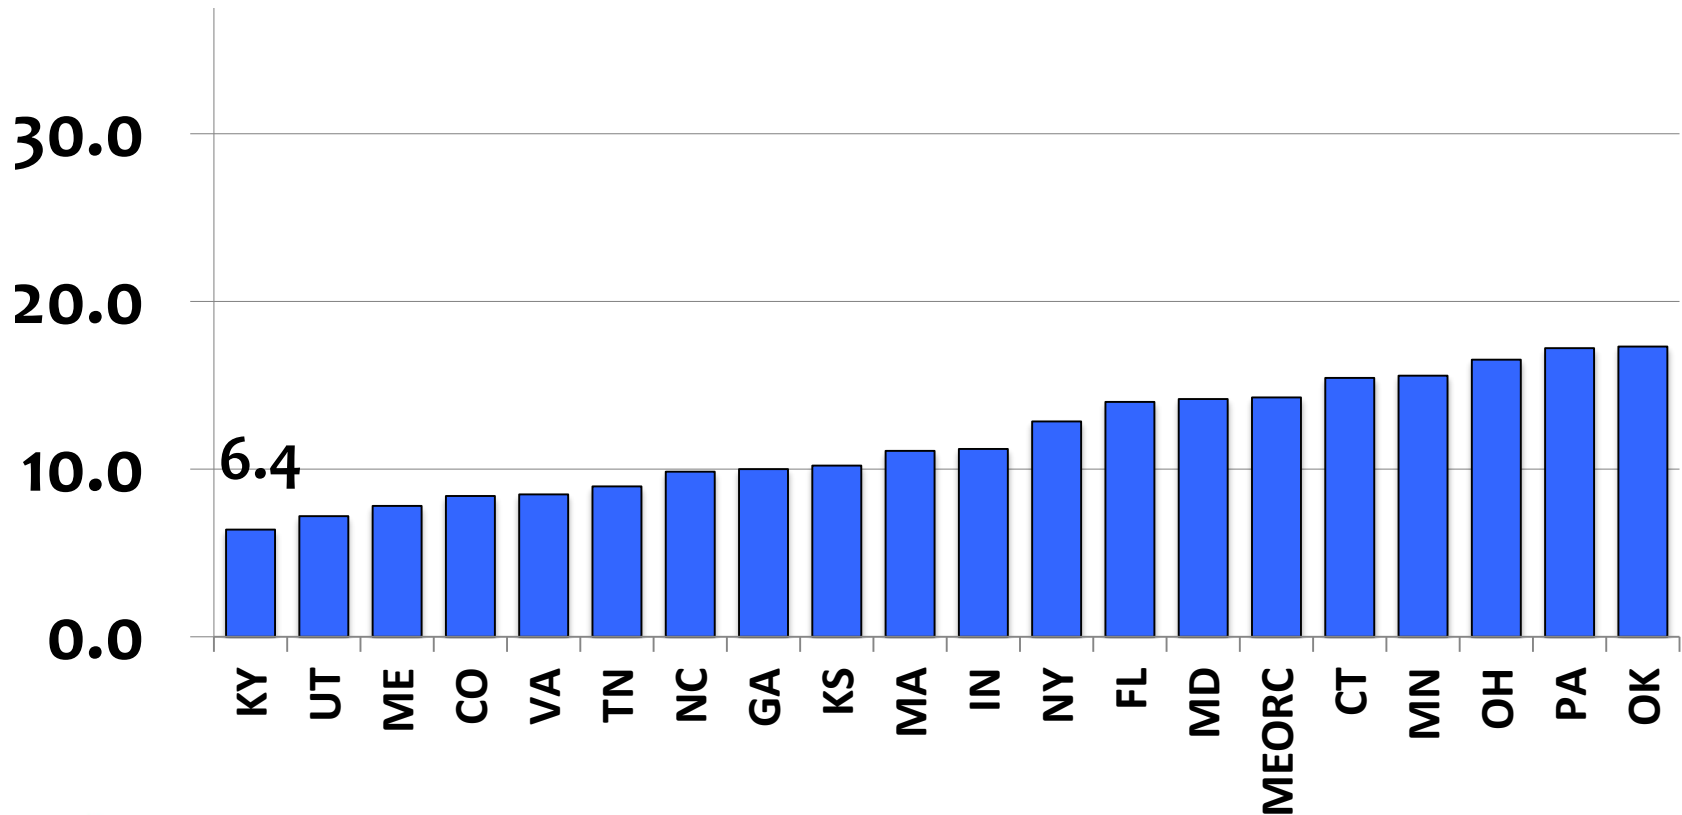

Mean hours and wages per week

Source: National Core Indicator Project 2013-2014

	Hours worked	Gross Wages	Hourly Wage
Individually-supported job	12	\$99	\$8.49
Competitive job	13	\$113	\$8.27
Group supported job	17	\$88	\$6.76
Paid facility-based job	16	\$28	\$2.39

Individual supported jobs mean hours worked per week

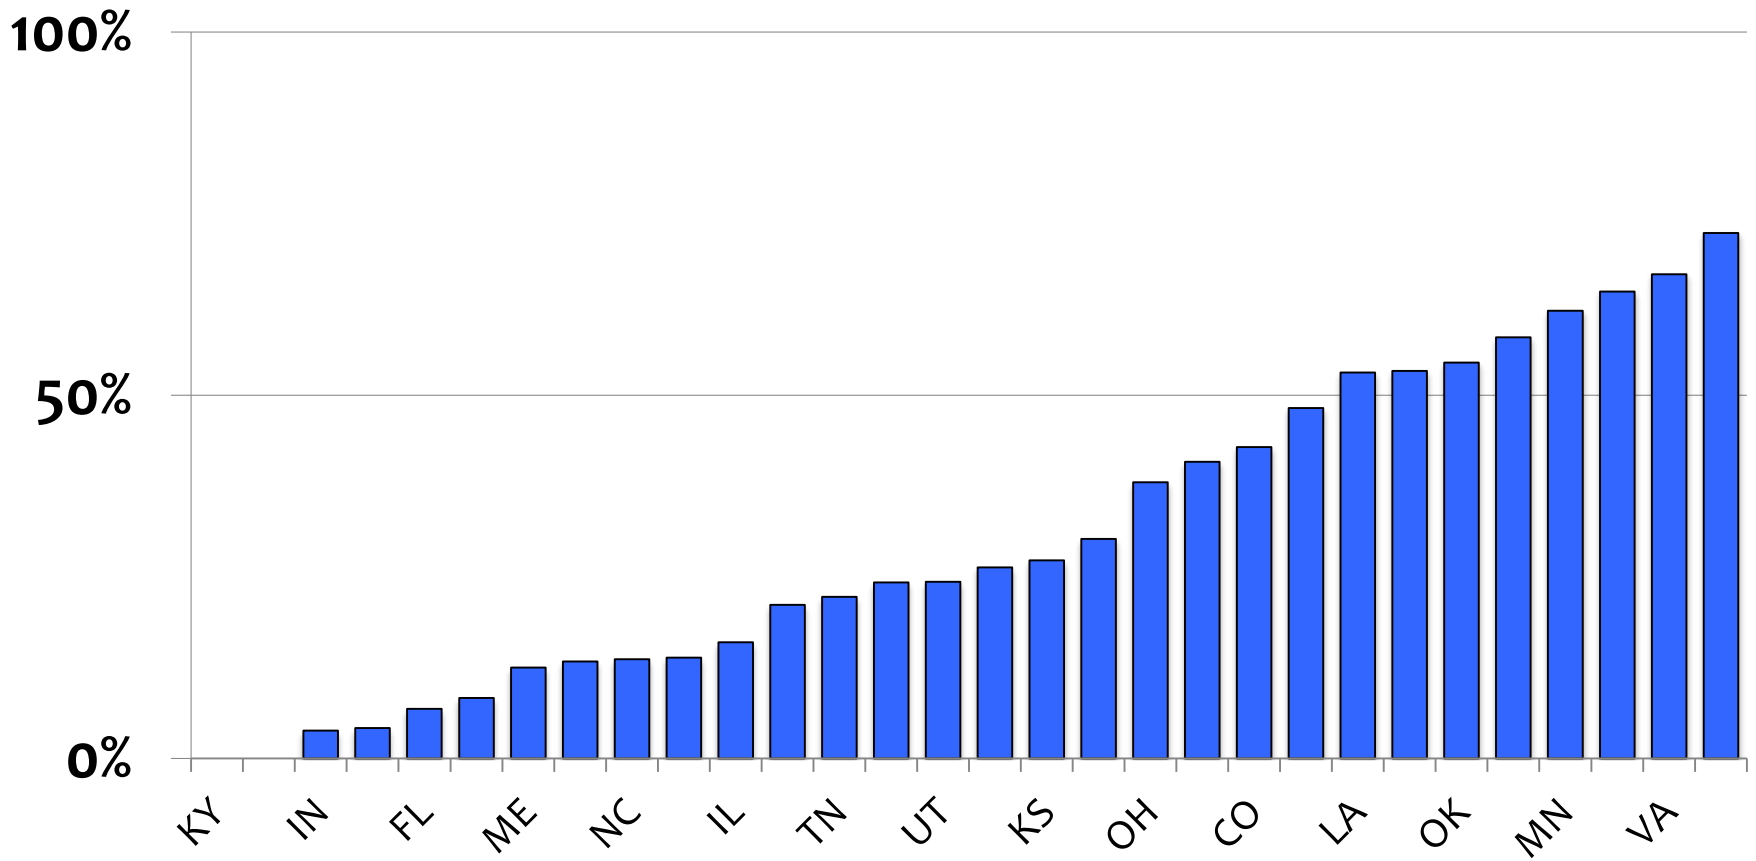

Source: National Core Indicators Project 2013-14

Percent in group supported jobs

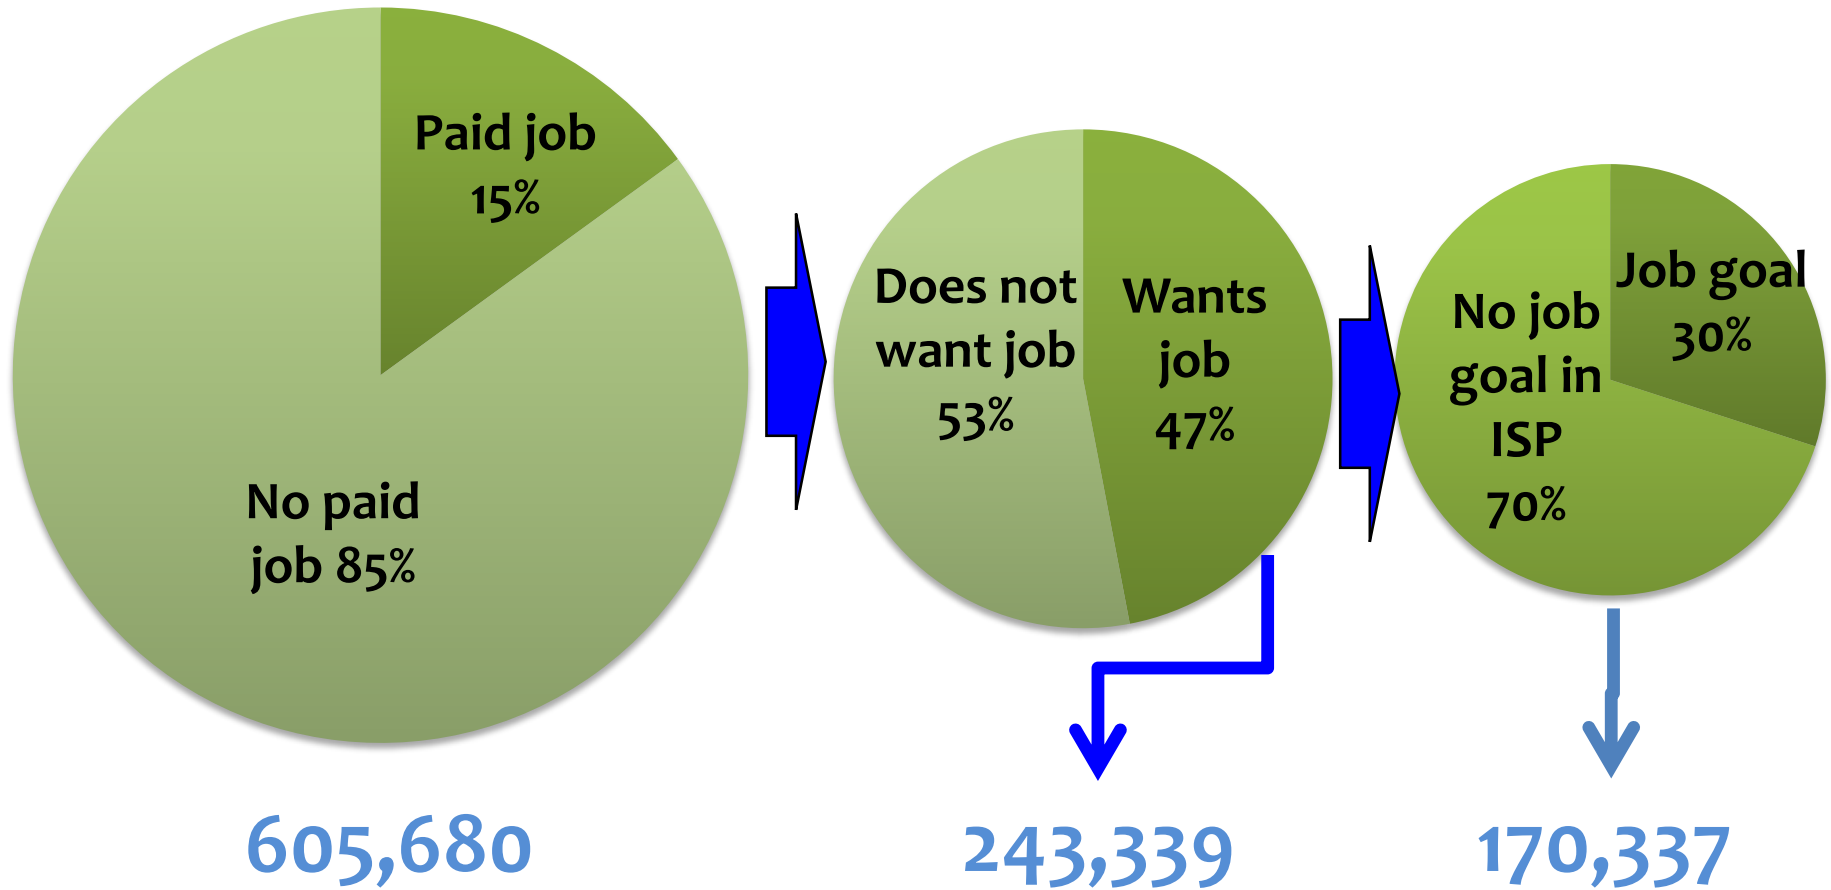

of those in an integrated job

Source: National Core Indicators Project 2014-2015

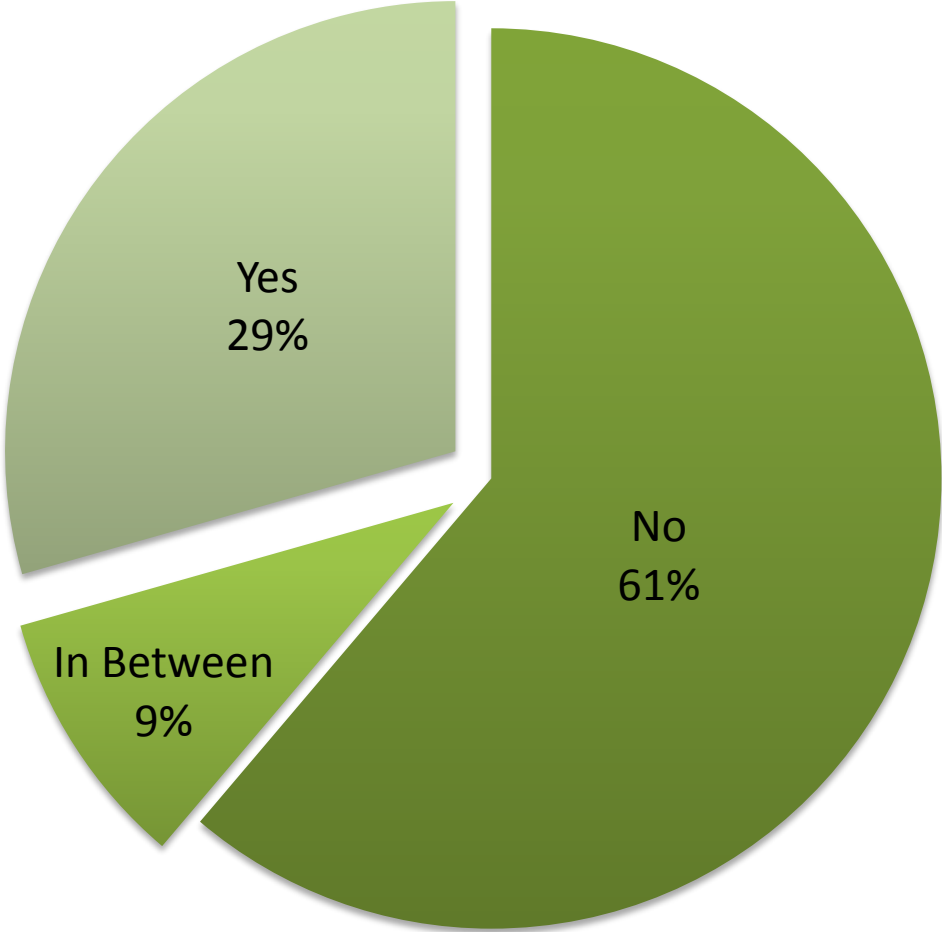

Supporting choice

Source: National Core Indicators Project 2012-2013

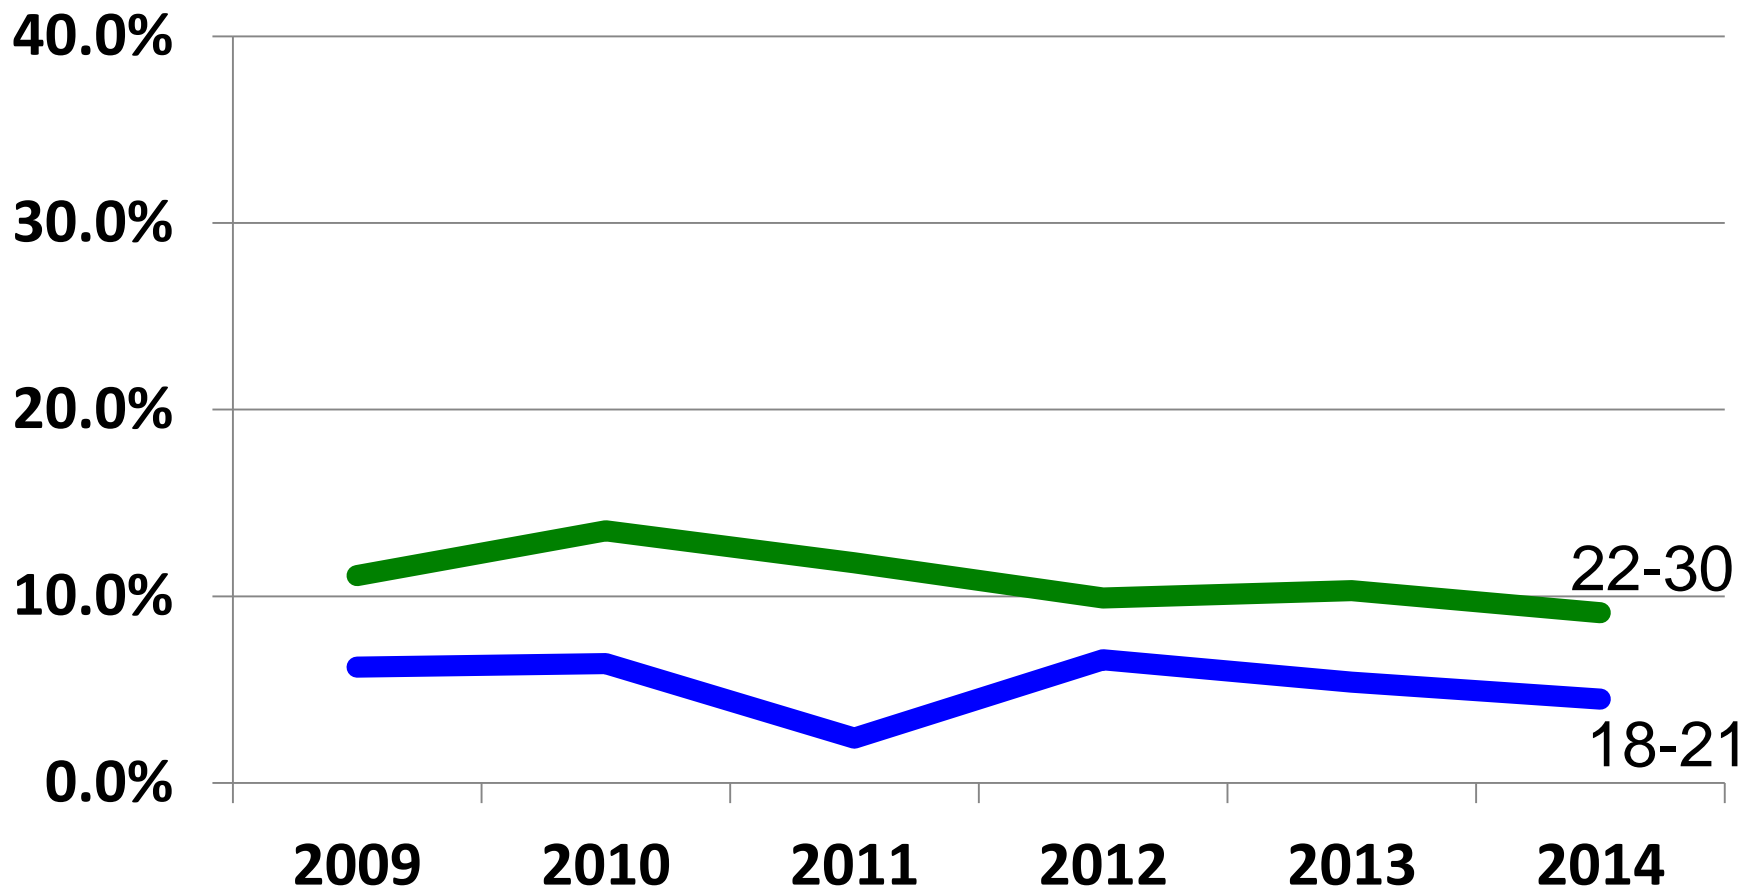

Working in a paid job in the community but would like to work somewhere else

Source: National Core Indicators Project 2012-2013

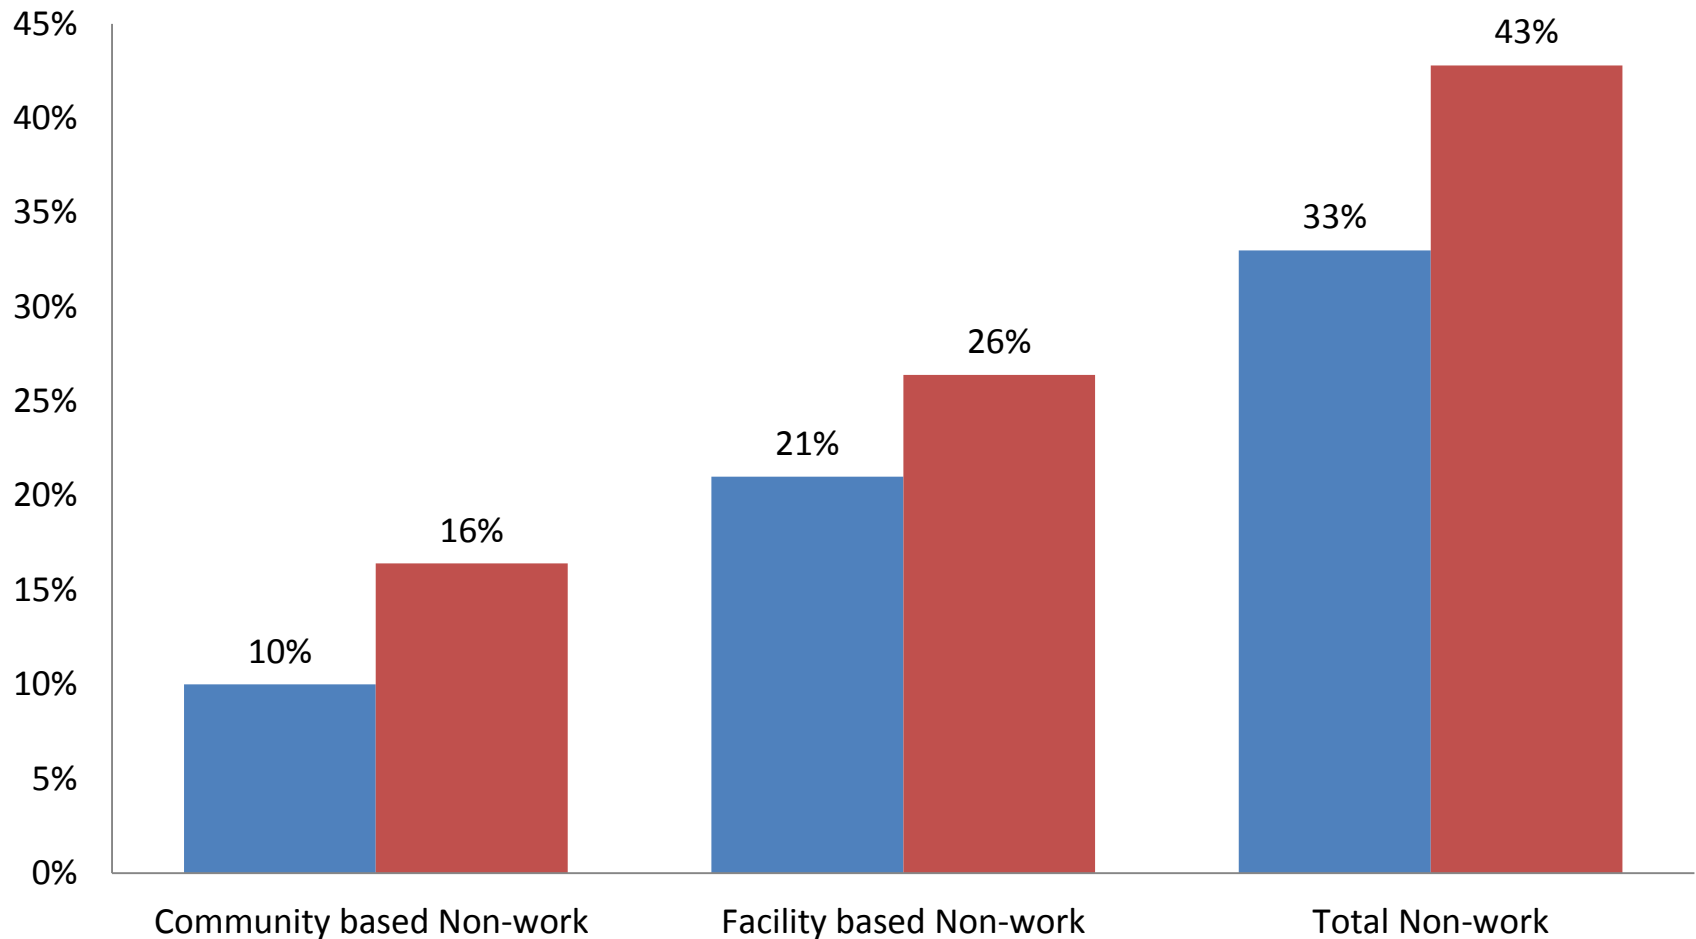

Percent in individual jobs

Source: National Core Indicators Project

The majority of nonwork services are facility-based

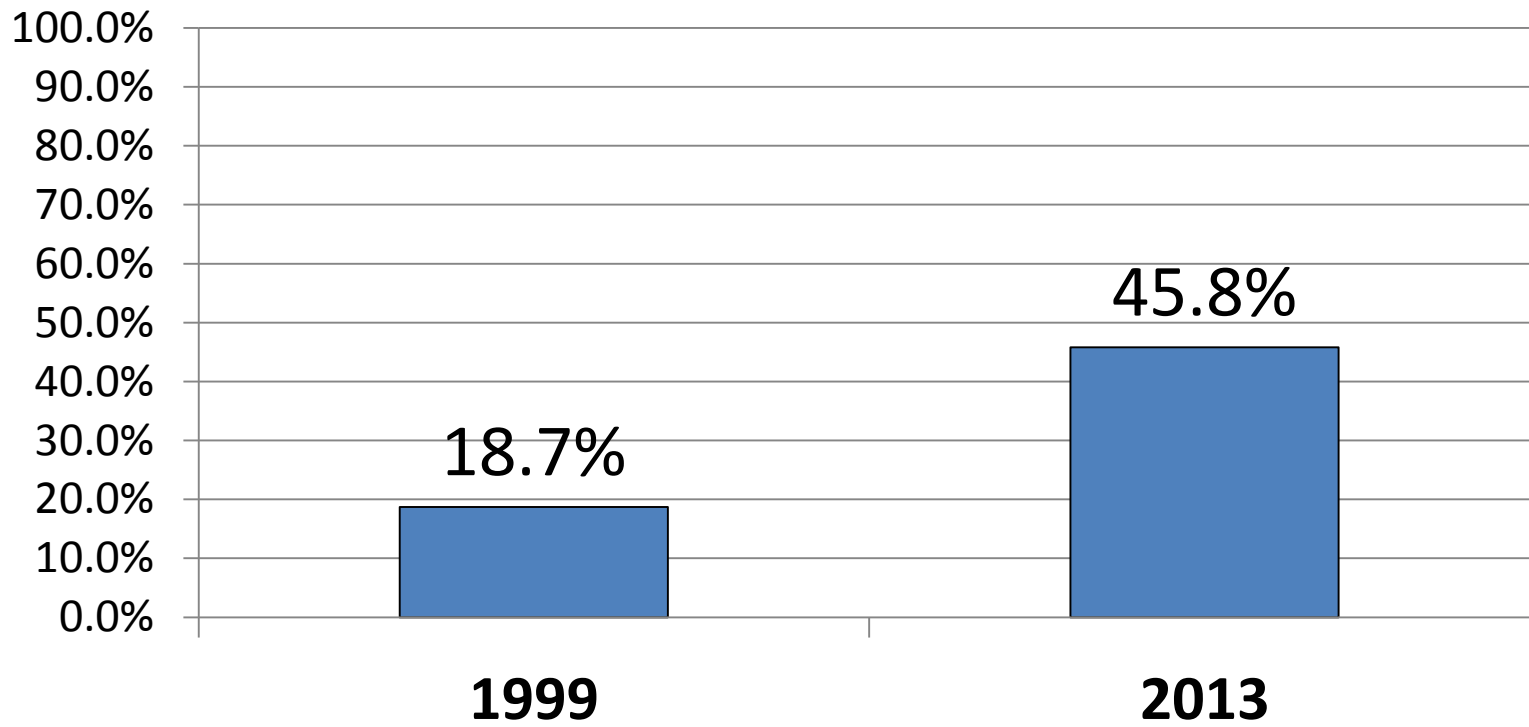

Source: 2010-2011 Survey of Community Rehabilitation Providers

Community based non-work services are increasing as well

Source: ICI National Survey of State IDD Agencies
